**IMPORTANT NOTES
 READ CAREFULLY BEFORE SIGNING**

✓ Seasonal charges of \$3.00 per foot will be charged for services installed from December 15th to March 15th unless a paid application has been received by November 20th and the job site is ready for construction (backfilled and framed) by December 1st. (These dates may not apply to Michigan's upper peninsula).
 ✓ The above charges will be billed for the entire service footage installed.

- ✓ Service line and main extension charges are subject to change at any time due to rate or regulatory changes.
- ✓ Customers will be charged tariff approved gas rates and monthly fees upon meter activation.
- ✓ SEMCO ENERGY GAS COMPANY will make restorations for work performed in the right of way. Final restoration of private property is the responsibility of the property owner.
- ✓ For most new projects, your meter will be installed and activated within five business days after the service line installation. Conversion customers should call (800) 624-2019 to request a meter when ready. A meter turn-on fee will be charged on your first gas bill.
- ✓ In order to schedule your gas service for construction, a completed application must be received in our offices with your payment.

You may cancel this application and get any connection fee you may have paid if you call SEMCO ENERGY GAS COMPANY no later than three (3) business days following the above date. If you cancel after three business days, you may still offer defenses to limit damages or pursue any other rights you may have. If you have questions, call the Marketing Department at 1-800-860-4277, extension _____.

Be sure to include the following information in your drawing. See sample and read instructions on the enclosed instruction sheet.

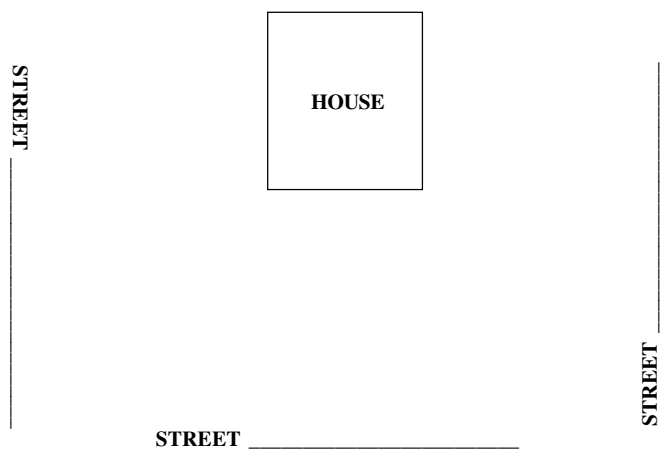

- A = Distance your service line should be located away from the house _____ ft. (minimum 3 ft.)
- B = Distance from front corner of house to meter set _____ ft.
- C = Distance from front corner of house to road edge _____ ft.

Your bill will be calculated using actual footage from the main tie-in to the meter location. The main may or may not be on your side of the road, which will affect your footage.

- Location of driveway and garage.
- Other underground facilities.
- Name of nearest cross streets.
- Indicate preferred meter location & preferred gas line route.
