

Limited-Time Offer on Building/HVAC Controls

SAVE YEAR-ROUND WITH AN ENERGY MANAGEMENT SYSTEM. Up to 20% bonus for all energy management system rebates from SEMCO's Energy Waste Reduction Program.

Bonus funds are calculated based on prescriptive rebate amounts for energy management system projects. Customers must meet the following criteria:

- This incentive is available for existing buildings with no digital automated HVAC controls or inoperable or not fully functional pneumatic control systems
- Upgrades on existing digital EMS systems do not qualify
- Minimum of 10,000 square feet controlled

Eligible Measures:

- EMS
- Web-enabled EMS
- DCV
- Setback/Setup
- Boiler turndown control 5:1–10:1 turndown—HVAC
- Boiler reset control
- O₂ Trim control—HVAC
- Process boiler sequencing
- Linkageless controls for process boilers replacing linkages
- Modulated boiler control for process 5:1 and 10:1
- Boiler oxygen burner control for process
- Automatic boiler blowdown
- School—setback without AC
- HVAC occupancy sensor
- DCV & HVAC occupancy sensor
- Boiler sequencing—HVAC
- Optimum start stop
- Ventilation reduction
- Enhanced ventilation control
- Boiler controls and efficiency improvements also qualify

Projects must be submitted by November 30, 2020. Available while funds last.
