HANDS OFF FOR SAFETY

*Don't Tamper With SEMCO ENERGY
Gas Company Equipment*

SEMCO ENERGY Gas Company reminds its customers not to attempt to service any natural gas equipment owned by SEMCO – no matter how simple the procedure may seem.

All equipment from the underground piping up to and including your gas meter, as indicated in the diagram, is SEMCO property and is serviced and maintained only by SEMCO Service Technicians or contractors. Customer-owned gas lines and connections between the outlet of the meter and your home, as indicated in the diagram, are the responsibility of the homeowner and should be serviced by a qualified plumber or heating and cooling specialist.

Turning the valve leading to the gas meter on or off, or operating any SEMCO equipment yourself, could result in a serious safety hazard.

If you need to have the gas to your home temporarily turned off for any reason, please contact SEMCO at 1-800-624-2019.

Remember, natural gas is a safe, efficient, and economical fuel when connected and maintained by trained professionals, such as SEMCO Service Technicians.

SENIOR CITIZEN PROTECTIONS

Any account holder 65 years or older, regardless of income, may notify SEMCO ENERGY Gas Company to be protected from shut off from November 1 - March 31.

Please contact Customer Service at **1-800-624-2019** if your account qualifies for this increased protection.

PAYMENT PLANS

You don't have to wait for winter to seek help if you are having trouble paying your gas bill. Contact SEMCO ENERGY Gas Company as soon as you think you will not be able to pay your entire bill. A payment plan may be set up to keep your bill up-to-date and avoid the risk of shut off.

WOULD YOU LIKE TO SAVE OVER \$600 PER YEAR?

*As a SEMCO ENERGY Gas Company
customer, you already know the value
of natural gas.*

If you have an electric
water heater in your home,
you can save over \$600
per year* by switching
to a natural gas water
heater. In addition to the
savings, natural gas water
heaters heat up quicker
than comparable electric
water heaters.

So if you are tired of a
cool shower and want to
save some money, take a
look at switching to a

high-efficiency natural gas water heater.
