

Wrap Your Home in Comfort

Weatherization rebates

Insulation is one of the most important upgrades you can make to your home's comfort and efficiency. Together with air and duct sealing, proper insulation can dramatically lower energy costs, improve comfort, reduce noise and allergens, and prevent ice dams.

In fact, insulation alone can cut your energy costs by up to \$290 a year.* Plus, we'll help you save hundreds more with rebates from SEMCO's Energy Waste Reduction Program.

Start saving.

Schedule your insulation upgrades with us today, then claim your rebate online at semcoewr.com.

2020 Program Year

*Estimated bill savings are calculated using an average of the energy savings obtained from the Michigan Energy Measures Database (MEMD), and 2020 approved SEMCO ENERGY Gas Company rates. Actual annual savings may differ from the estimated amount. Energy savings vary and are dependent on consumer behavior and in many cases weather.
